

Bringing the Real World Into the Classroom

Build students' mastery in interpreting,
understanding, and evaluating information
across all subject areas.

Support multiple learning styles with this powerful
and inclusive multimedia resource.

DiscoveryEducation.com/StreamingPlus

Start with "Why"

Containing thousands of standards-aligned resources, Discovery Education Streaming Plus provides you with the tools to teach your students to think critically about the content they use, see, and experience in their daily lives and to ask questions about the world around them.

In support of standards-based instruction, Streaming Plus is centered around the student experience. It is designed to allow students to:

- » Build background knowledge through research
- » Engage and interact with different types of text, both print and digital media
- » Identify main ideas and key details
- » Critically evaluate the information to draw conclusions
- » Cite relevant evidence to support their answers
- » Become confident, self-directed learners

With our most popular feature, Board Builder, students create virtual project boards using multimedia and text to synthesize their thinking and provide evidence of their understanding of a concept or problem.

**With over 50% of U.S.
schools using our services,
we have deep-rooted
partnerships and a foundation
of success in positively
impacting teaching
and learning.**

8 Reasons Teachers are Clicking with Streaming Plus

Discovery Education Streaming Plus is a comprehensive digital service that motivates students to learn and helps teachers in every content area to transform their instruction. Designed and driven by state standards, Streaming Plus uses engaging multimedia resources to add power to your lessons while supporting rigorous curriculum requirements.

1. **Access a wide variety of learning resources**, including instructional videos, skill builders, writing prompts, multimedia activities, and articles.
2. **Save time with Model Lessons**, practical examples that show how to pull the content together to meet specific standards.
3. **Quickly find appropriate and relevant content**, search by standard, grade level or subject, and more.
4. **Put students in control of their learning** with individual student logins, the Student Center, and Board Builder, a virtual project board for students to produce and share their own content.
5. **Personalize instruction** by creating informal, individual assessments with our Builder Tools to get actionable feedback on student understanding.
6. **Learn how to use the resources** in the most effective way with in-product professional development modules and on-site professional development options.
7. **Find unique "Discovery"-only opportunities** such as the Global Wrap news service, virtual field trips and exclusive content collections.
8. **Be part of a global professional learning community**, the Discovery Educator Network (DEN) is a community of educational professionals that fosters valuable networking, idea sharing, and inspiration.

"Discovery Education Streaming Plus is an amazing resource...it allows students to explore and create in the classroom...and can be life-changing for teachers if they utilize it in all of its capabilities."

Pam Inabinett, Teacher
Dorchester Schools, SC
